

SECTION 32 91 20**LANDSCAPING**

Last Updated: March 3, 2014

Part 1 GENERAL**1.1 SECTION INCLUDES**

- A. Requirements regarding vegetation, restoration, and reseeding on District lands or interest in lands.

1.2 VEGETATION, RESTORATION AND RESEEDING

- A. Except as otherwise agreed by the District in writing, ground surfaces within Aqueduct Corridors must be restored by the Grantee to a condition equal to that which existed before the encroachment work began, or as shown on the approved plans or specifications.
- B. The Grantee shall exercise care to preserve the natural landscape and shall conduct its construction operation so as to prevent any unnecessary destruction, scarring, or defacing of the natural surroundings in the vicinity of the work. Except where clearing is required for permanent works, all trees, native shrubbery, and vegetation shall be preserved and shall be protected from damage that may be caused by the Grantee's construction operations and equipment unless otherwise directed by the District. Movement of crews and equipment within the Aqueduct Corridors and over routes provided for access to the work shall be performed in a manner to prevent damage to roadways, grazing land, crops, or property.
- C. Plans for restoration of Aqueduct Corridors where soils and surface materials are disturbed through actions incident to construction, operation, and maintenance shall be approved by the District.
- D. The Grantee shall be responsible for prevention and suppression of all uncontrolled fires that are caused by the Grantee, its agents, or assigns. The Grantee shall be responsible for restoration of damaged areas.
