July 30, 2024—This is an executive summary of the fiscal year (FY) 2025 tentative budget for the Metropolitan Water District of Salt Lake & Sandy (the “District”).

The budget includes total budgeted revenue of \$101.4 million. The revenue is based on an increase of the certified property tax rate to 0.00035 and bond revenue proceeds of more than \$24 million. Budgeted revenue also include a 3% increase to the member cities water sales fixed charge (\$/month). A 3% increase for non-member city water rates is also budgeted. Future water rate increases are anticipated to be 5% in FY26 and 6% through FY 2029. Projected rate increases are shared with member cities.

Total budgeted expenditures are \$101.4 million. This budget includes more than \$27 million for routine non-capacity improvement projects with a significant portion for the SLAR-CC (Salt Lake Aqueduct – Cottonwoods Conduit) project. The Operations and Maintenance (O&M) budget totals \$28.4 million (excluding interest, depreciation, and amortization) and includes non-routine O&M costs and all Provo River Water Users Association costs. This represents an 4.87% increase in expenses due to increased chemical costs and employee costs, including the addition of four full-time equivalents (FTEs) for workload needs.

Additionally, this increase can be attributed to escalating assessments for Central Utah Project (CUP) Operation, Maintenance, and Replacement (OM&R) costs and related reserves. Costs related to CUP OM&R and related reserves are forecasted to continue to significantly increase over the next several years based on decisions of Central Utah Water Conservancy District. The forecasted increases are as follows (cost per acre foot):

- FY 2025: \$70.00 (8% increase)
- FY 2026: \$75.00 (7% increase)
- Increases beyond FY 2026 will be evaluated in the years leading up to FY 2027, with a stated need of the total cost to reach \$300 per acre foot.

The total FY 2025 capital budget is \$47.5 million. The total debt service budget is \$22.3 million. New debt service activity is anticipated during FY 2025 for the Little Cottonwood Water Treatment Plant Administration campus improvements. An increase in reserves of \$3.0 million is projected.

As previously noted, the tentative budget includes an increase of four FTEs and a 4% COLA/merit salary increase. The benefits plan includes District employees continuing to pay for 5% of the health insurance premium.

The annual allotment for the Provo River Project water supply is 100%.

**METROPOLITAN WATER DISTRICT OF SALT LAKE & SANDY**  
**CASH FLOW ANALYSIS ASSUMPTIONS**  
**April 4, 2024**

Fiscal year based on July 1 through June 30 of each year. Fiscal Year (FY) 2025 runs from July 1, 2024 thru June 30, 2025.

- 1a District Regular Operating Expenses:** For FY 2024, the amount shown is the budgeted expenditures expected for June 30, 2024 based on the adopted budget for the period ending June 30, 2024. The amount shown is the budgeted expenditures expected for FY2025. This column does not include Central Utah Project (CUP) costs shown in columns 4 and 10, depreciation, amortization, or interest expense. There is an assumed 3.0% annual increase for future years. This assumed increase is based on a 12-year average of District-controlled expenses.
- 1b. District Non-Routine Operating Expenses:** The amount shown is the budgeted expenditures expected for FY2025. The column includes non-routine projects and those projects that do not qualify as capital budget expenses forecasted for next 4 years. There is a cost escalation of 2.00%, based on previous 5-year average, for future years.
- 2. CUP M&I System OM&R Cost (\$/acre foot):** The CUP Operation, Maintenance, and Replacement (OM&R) cost is escalated at the average of 5.53%, based on a 20-year average.
- 3. CUP M&I System OM&R Reserve Cost (\$/acre foot):** The CUP Operation, Maintenance, and Replacement (OM&R) reserve cost is escalated at the average of 11.52%. The purpose of the escalating costs is to fund an asset management program to pay for aging (50 years or so old) infrastructure. The escalation is proposed as follows:
  - a. FY 2025: \$70.00 (8% increase)
  - b. FY 2026: \$75.00 (7% increase)
  - c. Increases beyond FY 2026 will be evaluated in the years leading up to FY 2027 with a stated need of the total cost to reach \$300 per acre foot.
  - d. The escalated percentage in column 3 is based on a five-year average for FY22-FY26.

- 64. Conveyance Fee:** Rate (\$/AF) to convey water in District pipeline facilities. Rates for FY 2025 escalate at 3%.
- 65. Non-member Entity Water Volume (AF):** The average of the prior three fiscal years is 974 acre feet of treatment and conveyance charges to Jordan Valley Water Conservancy District. This revenue is obtained on the basis of surplus capacity being available. Sales are shown for the next fiscal year based on currently available system capacities. Due to the uncertainty of future utilization of system capacity, sales in future years are not anticipated and will be evaluated on a year-to-year basis. Revenues received for treating and conveying water for others is utilized to offset related operational and maintenance costs. Untreated water sales to other entities are made on the basis of surplus supplies and capacity being available. The rate for untreated water for FY 2025 escalates at 3%. The raw water rate charge is different from member entities. Due to the uncertainty of future water supplies and available capacity, sales in future years are not anticipated and will be evaluated on a year-to-year basis. Any revenues from sales of this nature are placed in a reserve to fund future projects related to aquifer, storage, and recovery (ASR).
- 66. Water Conveyance for Others (AF):** Non-District raw water that is conveyed through District pipelines but not treated by the District (e.g., DACRWTP (CUWCD), Highland Conservation District (for Alpine Country Club), and Southeast Regional Water Treatment Plant (JVWCD)). ## I. Background

### How the District's budget differs from the Member Cities

- The District checks the various sources to ensure the District is in line with the market, e.g., Consumer Price Index, World at Work, Tech Net, and other related sources.
- When setting the increases, a comparison is made with the two member cities and other local water districts.
- SLC being self-insured can add medical benefits the District cannot competitively match due to the difference in the number of employees; therefore, the District focuses on other fair benefits.
- Typically, the District believes in giving merit increases and tying COLA to merit. However, due to the current economic state and rate of inflation, the District is recommending a COLA and a merit increase for FY 2025. A 1% merit increase represents about \$71,000 (based on FY2025 budget for salaries and wages, less payroll taxes).
- Ultimately, we are governed as separate entities and each Board or City Council must do what they think is in the best interest of their employees.

## II. Staffing Levels

The chart below reflects the current and projected staffing levels.

Department	Cost Center	FY2024	FY2025	FY2026 (anticipated)	FY2027 (anticipated)	FY2028 (anticipated)
Administrative	10	8	9	9	9	9
Operations	22	13	12	13	12	12
Maintenance	23	24	24	26	26	26
Information Technology	24	9	10	10	10	10
Engineering	25	7	8	9	9	9
Instrumentation & Electrical	26	9	10	10	13	13
Lab	50	6	6	6	6	6
<b>Totals</b>		<b>76</b>	<b>79</b>	<b>83</b>	<b>85</b>	<b>85</b>

The projected staffing levels in FY25 include an increase of four full-time equivalents (FTEs). The increased staffing levels will address workload needs at the District.

The Operations department requires 12 FTEs; however, they temporarily had an additional Water System Operator in FY24 to address an anticipated retirement in FY24. In FY25, there are no anticipated retirements so staffing levels for that department have returned to normal. In FY26, there will be a temporary increase for an anticipated retirement. One FTE is being added to the Administrative department as a permanent increase to address administrative and security needs. This FTE would be added midway through the fiscal year. One FTE is being added to the Information Technology department as a permanent increase to manage workload. This FTE would be added midway through the fiscal year. One FTE is being added to the Instrumentation & Electrical department to address SCADA system needs. One FTE is being added to the

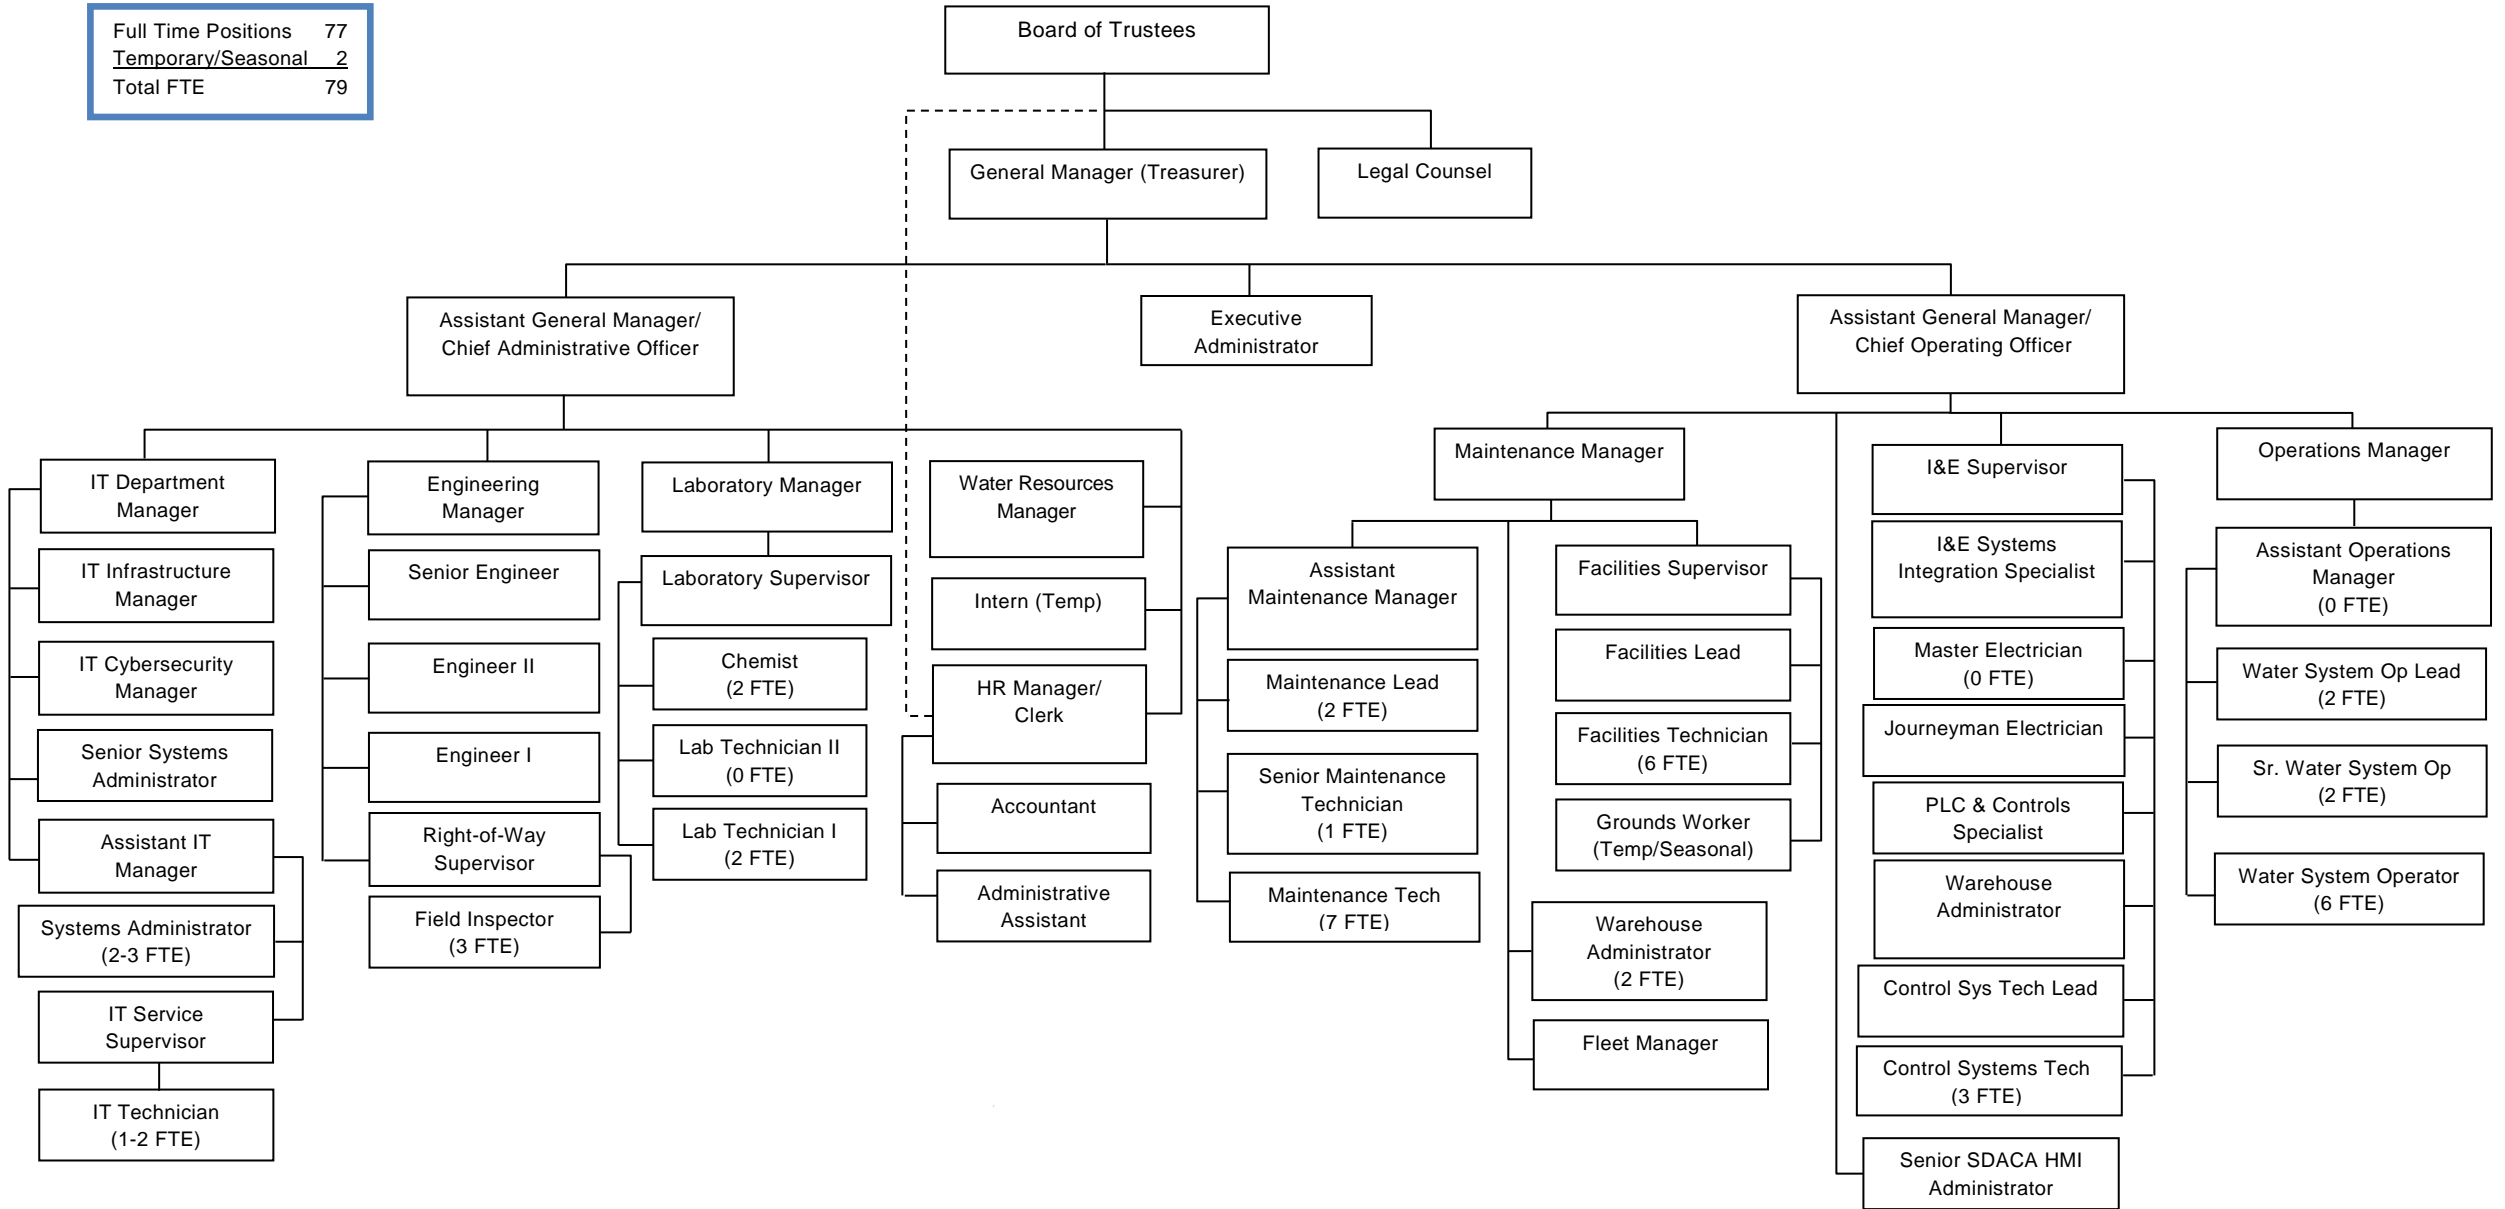

Engineering department as a permanent increase to manage the workload of the right of way license and encroachment program. This FTE would be added at the beginning of the fiscal year.

Future anticipated needs of the District are estimated to add four FTEs in FY26, two FTEs in FY27, and maintain staffing levels in FY28.

Attachment A represents the proposed staffing levels for FY25.

### **III. Benefits**

The District is interested in providing benefits that will help the District attract and retain skilled and experienced employees. The District is interested in maintaining reasonable stability and predictability for its employees and their families. The District is also interested in providing benefits reasonably comparable to those offered by other local entities similar to the District. The District provides employees with the following benefits package:

- Medical and Dental Insurance
- Vision Insurance
- Health Savings Accounts
- Flex Spending Accounts
- Employee Wellness Program
- Life Insurance, Accidental Death and Dismemberment, Long Term Disability, and Long Term Care
- EAP (Employee Assistance Program)
- Retirement Program (Utah Retirement Systems or URS)
- 401(k), 457, and Roth and Traditional IRA Retirement Savings Plans and Matching Program (via URS)
- Paid Sick, Vacation, and Personal Leave
- 13 Paid Holidays
- Educational Assistance

The District is a member of the Utah Retirement Systems. The URS sets the District's contribution rate. The Tier I contribution rate for FY25 is 16.97%, a decrease from the prior year. The Tier II contribution rate is 15.19%, a decrease from the prior year. There is an almost even split amongst our employees between Tier I and Tier II.

The District encourages employee wellness through a Participatory Wellness Program (PWP). The PWP provides an incentive for participation and is available without regard to an employee's health status. Employees who participate would receive \$500 in their HSA in 2025. The PWP incentive requires an employee to complete at least four of the nine available options before November 15, 2024. These options include the following: (1) flu shot, (2) preventative exam with personal physician, (3) biometric screening, (4) COVID vaccination/booster, (5) wellness challenge participation, (6) attending a lunch and learn, (7) Dexa Body scan, and (8) age/gender/risk-appropriate screening with a personal physician.

### **IV. Job Grades & Salary Ranges**

The District has a traditional pay structure with job grades and salary ranges for all District positions. The District will implement a 2.0% salary structure adjustment based on the information compiled from the 2023 HR Metrics Survey by Employers Council and the World at Work 50<sup>th</sup> Annual Salary Budget Survey. The salary adjustment will be for the non-management and information and operational technology pay structures. The salary adjustment shifts the salary range's midpoint and helps to maintain the District's position to provide competitive compensation. The salary structure adjustment does not increase the budget, nor does it offer an automatic 2% raise for any employee.

Annually an evaluation of market wage data is conducted to determine if the salary ranges for District positions are competitive with the market and internal equity. This analysis resulted in the following positions being reassigned to a different pay grade: Lab Technician I, Water System Operator, Warehouse Administrator, Executive Administrator, Accountant, Chemist, Water Resources Manager. The reassignment of these positions does not increase the budget.

The District is proposing the following new position titles: Administrative Assistant, Maintenance Technician, Senior Maintenance Technician, Fleet Manager, PLC & Controls Specialist, SCADA HMI Administrator, Senior SCADA HMI Administrator, Assistant IT Manager, Right-of-Way Supervisor, and HR Manager/Clerk. Three of these positions represent an increase in FTEs while the remaining are a change in position descriptions.

The District is renaming the Information Technology pay structure to Information and Operational Technology pay structure. This pay structure will include positions from our Instrumentation & Electrical and Information Technology departments.

### **V. Skill-Based Pay**

The District continues to support a skill-based pay program to allow workforce flexibility and cross-training. This program has been successful by encouraging employees to learn additional skills in order to increase their productivity and efficiency. Skill-based pay is given based upon increased knowledge, skill, and ability. Employees who participate in the skill-based pay program receive their hourly wage and an additional skill-based pay for those successfully obtained skills.

As part of the FY25 budget, the District includes \$14,040.00 in salary and wages to support the expansion of the program. The program will be expanded to include compensation for employees performing PCS HMI Administration skills. Implementing this skill will be beneficial to the District because it will allow more employees to focus on the District's SCADA system temporarily while we build up a group of employees dedicated to this need of the District. This is a temporary skill based pay program that will end within the next few years.

## Staffing and Compensation Schedule

### VI. Wage and Salary Statistics

Historically, the District utilizes a merit pay system or pay-for-performance system to determine wage and salary increases. The District compares wage and salary increases with the member cities and other water districts. The District also evaluates the Consumer Price Index and Employment Cost Index from the U.S. Bureau of Labor Statistics. Wage and salary information are evaluated from the 50th Annual Salary Budget Survey 2023-2024 by World at Work, Employers Council 2023 HR Metrics Survey, and 2023 AWWA Compensation Survey (Large).

Based on these data points, the District is proposing a 4% merit increase for FY 2025. This represents the amount budgeted based on current salaries and wages, but does not necessarily mean an employee would be eligible for a 4% merit increase. The following table details the comparisons with member cities and other water districts:

Salary Review Comparison				The FY24 budgeted increase details:

### **VII. Conclusion**

Based on the proposed additional positions, merit increases, retirement increases, payroll tax increases, and projected increases to medical, dental and other benefits, the total District budget increases by \$367,889. The various components are broken down as follows:

\$320,806	Salary & Wages
\$33,124	Overtime Premium
(\$17,428)	Medical Insurance Premiums (Health, Dental, Vision, Health Savings Account)
\$5,928	Other Insurance (Life, AD&D, LTD, Long Term Care)
\$29,114	Payroll Taxes
(\$3,655)	Utah Retirement

Based on the above, the net increase in personnel costs to the District is estimated to be 1% of the overall O&M Budget (excluding interest costs).
